

Preston Lodge RFC is a forward thinking rugby club that is working hard to redefine its place in the Scottish Rugby community and the manner in which it engages with its community partners. Sustainability on the field, in our relationships and commercially is key to how we grow our footprint and provide a pathway for people into the sport. Ensuring a safe and successful future for rugby in the Prestonpans area is at the heart of our mission.

To that end we are seeking a dynamic and committed Development Officer to join us full time to help us deliver on our vision. With responsibility for our mini's and youth teams, and in particular, the School of Rugby programme run in partnership with Preston Lodge High School and Active Schools, the role provides a significant canvas to make your mark. As an outcome focused team, it's not about the hours you keep but rather about what we can achieve together. What ticks our box are self-motivated, driven candidates who are curious, eager and ready to help our club, the school and the teams grow and succeed. We take pride in what we do, love the sport in which we participate and expect that this will flow through the DNA of anyone who joins our team.

Why now check us out and see where the next step in your journey could take you?
