Pregnancy and Rugby Policy

LEADERSHIP · ENGAGEMENT · ACHIEVEMENT · ENJOYMENT · RESPECT

FOREWORD

The benefits of participation in sport are widely recognised, not just in terms of health but in building confidence, teamwork and friendships. Scottish Rugby's Values of **Leadership, Engagement, Achievement, Enjoyment and Respect** apply across all areas of our sport, from mini rugby through to our international teams.

We all have a responsibility to look after the participants in our game, with their wellbeing and safety being at the centre of everything we do. Scottish Rugby's aim is that everyone who is involved with our sport has a positive experience and goes on to achieve their full potential both within the game and in life.

Scottish Rugby wishes to be as inclusive as possible, imposing only such eligibility restrictions as are necessary and proportionate, and providing a clear path to participation for all. Our Pregnancy and Rugby Policy recognises the need to protect the health and wellbeing of both the mother and the unborn child, and to avoid improper discrimination on the grounds of pregnancy. As such it is in line with World Rugby's Pregnancy and Rugby Guideline.

To support our Policy, we will provide advice and guidance to players, clubs and to the volunteers who are the heartbeat of our game. ~~Our Policy and associated guidance will form part of our ongoing Equality Action Plan.~~

We will continue to monitor best practice in this area and will, where necessary and appropriate, update our Policy accordingly.

POLICY STATEMENT

Scottish Rugby is committed to providing a safe and supportive environment for all those participating in our sport. In doing so we will adopt inclusive policies to enable players to play in an environment which protects the wellbeing of all players and which promotes fair competition. The privacy and the dignity of all players will be respected.

Everyone within the Scottish Rugby community will be made aware of our policies to promote the safety and wellbeing of those playing the game.

Key principles:

- **Primary responsibility for the health and wellbeing of each player lies with the individual player. In agreeing to participate in the game, player's must take seriously the risk of injury to themselves and to others.**
- **Scottish Rugby, and those governed by Scottish Rugby, will follow best practice in relation to the participation in the game by pregnant players.**
- **We believe that best practice is currently represented by World Rugby's Pregnancy and Rugby Guideline.**
- **The principles contained within the World Rugby Guideline have been incorporated into Scottish Rugby's Pregnancy and Rugby Policy.**
- **Scottish Rugby supports moderate, low intensity exercise during pregnancy. However, due to the increased risk of injury to both the mother and the unborn child, pregnant players are not permitted to participate in contact rugby activities.**
